

OIL MOTOR

| | |
|----------------------------|---|
| MOULDED MATERIAL | PA46 (glass fiber) |
| FAMILY OF MATERIALS | PA 6 ; PA11 ; PA 12 ; PA 46 ; PA 66 ; PA 69 ; PA 610 ; PA 612 ; PA 6-3-T ; PA 6 I ; PA 6 T ; PA-PDA (Polyamides) also with reinforced and filled additives, impact modified and self-extinguishing. |
| POLYMER'S FEATURES | <p>High mechanical strength, stiffness, hardness and toughness</p> <p>Good fatigue resistance</p> <p>Good sliding properties</p> <p>Excellent wear resistance</p> <p>Good electrical isolating properties</p> <p>Good processing in the machine tools</p> |
| APPLICATION FIELDS | Almost any, in this case the filter requires good heat resistance, high resistance to chemicals, preparation of polymer assembly of parts for interference and using ultrasonic welding. |
| SPECIAL NOTES | |
