

BRAKE CONTROL-1

MOULDED MATERIAL	PA 66+ GF (long glass fiber)
FAMILY OF MATERIALS	PA 6 ; PA11 ; PA 12 ; PA 46 ; PA 66 ; PA 69 ; PA 610 ; PA 612 ; PA 6-3-T ; PA 6 I ; PA 6 T ; PA-PDA (Polyamides) also with reinforced and filled additives, impact modified and self-extinguishing.
POLYMER'S FEATURES	<p>High mechanical strength, stiffness, hardness and toughness</p> <p>Good fatigue resistance</p> <p>Good sliding properties</p> <p>Excellent wear resistance</p> <p>Good electrical isolating properties</p> <p>Good processing in the machine tools</p>
APPLICATION FIELDS	Almost any, In this case the lever requires a good dimensional accuracy, a high mechanical strength but greater elasticity of any PA filled with short glass fiber to avoid the possibility of a net collapse without warning, the polymer must also allow good aesthetic ability to highlight different types of finish juxtaposed with each other.
SPECIAL NOTES
